“A true leader has the confidence to stand alone, the courage to make tough decisions and the compassion to listen to the needs of others. He does not set out to be a leader, but becomes one by the quality of his actions and the integrity of his intent. In the end, leaders are like eagles...they don’t flock, you find them one at a time.”

Dale Carnegie’s 10 Suggestions To Would-Be Leaders

- Begin with praise and honest appreciation.
- Call attention to people’s mistakes indirectly.
- Talk about your own mistakes before criticizing the other person.
- Ask questions instead of giving direct orders.
- Let the other person save face.
- Praise the slightest improvement and praise every improvement.
- Give the other person a fine reputation to live up to.
- Use encouragement.
- Make the fault easy to correct.
- Make the other person happy about doing the thing you suggest.
